About us

Incepted in 1970, Luckshmi Yarns dealt with raw cotton and moved on to cotton yarn and fabric. We are leading exporters of cotton yarn worldwide and have currently forayed into fabrics. With an annual turnover of around 300 crores consistently in the last 5 years, Luckshmi Yarns has made its name in the business through high-quality products and ensuring the highest customer satisfaction. Year on year, we are growing at the rate of 50-60%, which is a clear testament to our quality products and efficiency.

Our business operates with highly skilled employees and modern machinery that have helped us grow rapidly over the years. Over the years, our commitment to high quality and consistent service has gone a long way in increasing our customer base. From raw cotton to cotton yarn and fabrics, Luckshmi Yarns have significantly increased its portfolio. Today we remain market leaders in offering qualitative products. We are a quality conscious company that has been in business for over 52 years, and is committed to continuous customer satisfaction by providing products that are the best in quality at market value. Bangladesh, Portugal, Egypt, South America, Latin America etc.,

INNOVATING
FOR A
SUSTAINABLE
GROWTH

Chairman's Message

We have a clear vision to become a market leader in cotton yarn - fabrics and want to be associated with top brands. Quality is our USP and timeline delivery is our forte. We believe that customer-centric focus is the key to achieve a successful business. Therefore, we lay great emphasis on the requirement of our customers. We design and offer Cotton Yarn - fabrics to meet customer's specifications as per industry standards and practices. We cater to top brands with quality and deliver within time frame.

We are committed to supplying the best quality products to our valued customers. Our main focus is on providing quality fabrics/yarn at a competitive price. We have spent quite some time making sure that our top to bottom quality checks is in place to meet our customers' expectations.

To continue innovating, we have upgraded our plant to a state of the art facility, where old machines are replaced with newer, better state-of-the-art models. All machinery is digitised and computerised to deploy efficiency. As a result of this, the cost of production is reduced and quality enhanced. The best-in-class efficiency of our production is a testimony of our dedication towards the products we have built and our willingness to go above and beyond to deliver consistently attainable quality.

We equate longevity with value. This is why we do so much of our manufacturing here in India. Our modern manufacturing plants, up-to-date technology and stringent quality control procedures help us to manufacture only the highest quality products, which are highly sought out for their durability and reliability. We have immense pride in the skills, knowledge and experience of all our employees, who ensure that this continues to be achieved by executing our ever-evolving priorities with precision.

..... GOPAL SHARMA - Chairman

Our Mission

To constantly innovate and improve, searching for ways to not only meet but also anticipate the needs of the future. Our ambition to succeed propels us into the future, discovering innovative ways to deliver ever-greater value to our customers.

Our Vision

Being a fully integrated textile company that is present across the entire textile value chain. From speciality yarns to fabrics, we have our sights not only on the domestic textile market but also on becoming a global fabric provider. For commercial leaders, we are their preferred partner because they know they can rely on our products and services to bring them the best results.

Our Manufacturing Facility

Our manufacturing facilities located in Gujarat, the prime capital of excellent quality cotton in the world. Our facility specialises in providing the contamination-free product. Our USP is that we can promise the highest quality of the contamination-free yarn that is premium and offers top-notch results in fabric. We specialise in customising as per customer requirements. We take complete care to accommodate all the requirements of our customers and execute it duly and in a timely manner, ensuring seamless and transparent transactions.

Our manufacturing unit is equipped with the latest generation machines that remove all impurities and present with the purest quality of cotton yarn. Our skilled labour and experts work together to produce world-class quality in our fully equipped manufacturing facility. Made from modernised machines with polypropylene sensors and step cleaners attached in the blow room, the contamination in the cotton is completely ruled out. Apart from this there is also an extra labour deployed to double the elimination of all contaminants to deliver the best output.

DELIVERING
QUALITY
CONSISTENTLY

With all these stringent quality checks in place, our yarns are very consistent in quality and are within very tolerable limits of unevenness during manufacturing. With these excellent quality yarns in place, our fabrics are made to be of perfect quality, catering to brands worldwide. Some of our global clients include Jockey, Aditya Birla Lifestyle, Mango, Zara and many more.

With 25000 spindles spinning mills in South India and 100% export-oriented policies towards yarn & fabrics, we are committed to provide high-quality products, competitive prices, continuous improvement in all our processes, and timely and precise delivery. We use the latest generation computerised autoclave machines to treat our yarns & fabrics. The functions of the machines are automatic & easy to operate. Our 25000 spindles spinning mills in South India comprise state of the art machinery, especially Vytal contamination clearer & polypropylene sensors that give a minimum of Contaminated Yarn. Our knitting facility is located at Gujarat with a state-of-the-art facility that promises world-class quality.

Delivering Quality

We have the capability to manufacture and supply superior quality Textile to our clients as per their specifications and requirements. Our products are developed using skilled workmanship and high-grade yarns, which are sourced from a reliable vendor base in the market. The products offered by us are highly acclaimed in the market for their shrink resistance, colour fastness, durability and smooth texture. We are constantly innovating to produce at the highest efficiency levels. These efforts have been made possible through streamlining our processes and utilising the latest machinery. The end result is that we are a profitable company, supported by increased operational efficiency and enhanced capacity. In addition, we focus on adding value for our customers by penetrating deeper into international markets whilst retaining our identity across the globe.
